Fruit in Ohio.

Reports general, special and pro-fessional and newspaperial represent that the late severe weather wasn't as "much of a shower" in the fruit LINEN, GILT, BAND killing way as was at first supposed. On Monday morning fruit growers were very despondent, and we had such a collection of leng faces in our sanctum and thereabouts as to make the situation almost untenable for a light hearted man. On Tuesday morning the prospect brightened.—
It was just probable that the fruit
was safe. On Wednesday morning this probability became a certainty Reports of correspondents from different sections of the State differ as to the amount of damage done, but it is safe to say that in Ohio the prospect for an abundant yield of fruit of all kinds is still good.—Farmer's Chronicle.

Ayer's Cathartic Pills, For all the purposes of a Laxative

Perhaps no one medicine is so universally required by everybody as a catharite, nor was ever any before so universally required by everybody as a catharite, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it nover hals through any fanks or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither caloniel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them see fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity. They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills ranidly cure:—

For Dyspepsia or Indigestion, Listlessmess, Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Hillous Headache, Sick Headache, Janualse or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysensery or Biarrhea, but one mild dose is generally required. action or remove the obstructions which cause it.

For Dysensery or Biarrhesa, but one mild done is generally required.

For Hheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.
